

The Instytut “Pomnik Centrum Zdrowia Dziecka” – IPCZD (Children's Memorial Health Institute), announces the “**SMART Final Open workshop - Paediatric Foresight Training Course**”, organised in the framework of the SMART (Small Medicines Advanced Research Training) project, funded by the H2020 Programme.

The Open workshop is aimed at evaluating the competences gained by the IPCZD staff and the general results of the project. The meeting will take advantage from the participation of interested stakeholders including young scientists to be involved in future research, government representatives, regulatory bodies, industry, trainees and voluntary associations.

The SMART Open workshop – Paediatric Foresight Training Course, entitled “Current status and future changes in the European paediatric biomedical research” **will be held in Warsaw, on the 29-30 November 2018.**

The workshop will address the following topics:

- Paediatric biomedical research - novelties in the regulatory, academic and ethical framework-
- The paediatric initiatives around Europe: how are we using innovations in paediatric research dedicated to drugs development?
- How to prepare and run paediatric clinical trials
- Paediatric research innovative
- Paediatric Formulations

Further information will be published on www.smart-h2020.eu and www.czd.pl
